Occupy Sudbury

To whom it may concern:

Our Union, “Mine Mill 598/CAW” is an organization that has always pursued ideologies and campaigns that benefits our members and the community at large. From what we have seen so far, “Occupy Sudbury” has a vision that seems to point in that direction.

This particular group seems to be diverse and have a good nucleus of engaged citizens willing to express their desire and commitment to promote the idea that our great nation look at a different direction and possibly a different system.

From what we can see, many of the individuals camped out here at Memorial Park are young people who seem to be discouraged with the system they've all inherited and see the perceived growing inequality that leaves far too many people behind in our great country and community. Your determination and strength is admirable and should not to be underestimated.

While as a Union we don't know what this “Occupy Sudbury” movement will eventually lead to, we know that your presence here at Memorial Park is truly significant and recognized.

Keep up the fight for all Canadians and Sudburians.

In solidarity,

Richard Paquin,
President.
