

L **OCAL 598/CAW NEWSLETTER** **NUTRA 2000**

February 3rd, 2010

Dear Members:

Since our last meeting, there hasn't been too much happening.

Xstrata Nickel and Mine Mill Local 598/CAW have reached a tentative agreement, which everybody is glad of. The ratification vote was held on February 2nd, 2010 and the members voted 93% in favour of accepting the new collective agreement.

In the kitchen, they finally put a door handle on our server door. The job of the Number 7 at night has a few changes that they will be trying out.

Andrew, our Health and Safety representative started his certification course. He will be going for his next course in May.

Construction will start soon for our new offices on Richard Lake. We will be building an environmentally friendly, green building.

Timmins will be losing 600 over jobs in mining, and as a result, will also lose spin-off jobs in the community. Our Local Union said they would help in any way they can.

Our next Joint Stewards' quarterly meeting is on March 19th at the Day's Inn.

Happy Valentine's Day

In Solidarity,

Huguette Gagne, Unit Chair.
