NEWSLETTER

October, 2014

Dear Sisters and Brothers,

I would like to take this opportunity to let everyone know what has been happening at our site and our Local.

It's getting to that time of year again when our production season will be coming to an end. As of right now, if nothing changes, the company is saying that our Primary will be done by the end of October and our Secondary should be done somewhere around the middle of November. Once the Primary is shut down, the company will be dropping down to two shipping crews for the shipping season. At this time, the end of shipping has yet to be determined. Unless the company gets more of a winter budget, the only employee's that will be working the winter will be the maintenance department and all the tradesmen.

The company has also said that they're going to shut down for two weeks at Christmas. The company has agreed to ask all employees if they're willing to work the week of deer season if the company can get enough workers to make two crews, but there are employee's that want deer season off. If they do not get enough employees that are interested in working that week, the company will be forced to call back junior employees that are qualified from the seniority list. With that being said, I would like to wish anyone that's going to be hunting, good luck.

In Solidarity,

Kevin Bailey
