

Sudbury Mine, Mill & Smelter Worker's Union, Local 598/Unifor

Dear Sisters and Brothers,

As we continue moving forward and dealing with the new attitude or stance that the company is taking, it is important now, more than ever, that we stay united. We must consolidate our efforts to ensure that the company follows the collective agreement and continue to exercise our right to a safe work environment.

It is important that when issues come up between employee and employer that the employee notifies his stewards or health & safety rep. as soon as possible. This will ensure a quicker and prompt resolution.

Thanks for your cooperation and be safe.

In Solidarity,

Gates St. Louis

Gates St. Louis
Unit Chair

Something to think about...

***The Harper Government is continuing its assault on workers rights.
Please ensure to exercise your right to protest these changes at every
opportunity.***

United we stand, Divided we fall
