BRINKS CANADA NEWSLETTER

February 3, 2014

Dear Sisters and Brothers,

The recent workplace fire tragedy has devastated most of us, but luckily no one was hurt. Our daily routines have been changed and we will continue to face challenges for as long as it takes to rebuild our Branch. I encourage people to be patient and understanding as this slow process continues. I strongly believe that management is doing everything in their power to get the branch back to normal as soon as possible.

On a positive note, we have won our unsafe workplace refusal and Canada Labour has ordered the company to maintain the three man ATM crew. This is a huge win and will help maintain the safety of our workers from coast to coast. I would like to personally thank and congratulate the parties directly involved as this took a lot of courage and determination. Again, congratulations!

If you have any workplace and/or health & safety concerns, please bring them to my attention as soon as possible so that I can try to get a resolve before it becomes a serious issue.

In Solidarity,

Gates St. Louis
