BRINKS CANADA (Sudbury) NEWSLETTER

May 2016

Dear Fellow Members,

Not much new to report. The first aid supplies are being replaced in the trucks along with proper fire extinguishers installed.

There are new posters displayed, most of which are related to health & safety. You will also find the minutes of our health & safety meetings. Please take time to read them.

On a different topic, it was brought to my attention that unethical conduct has taken place at some of our customers. Please be sure to treat every workplace with respect as this affects everyone. (Let's be professional).

Also, some of you have brought to my attention that the language and comments being used at our branch is unacceptable and I fully agree. This applies to both management and non-management employees. I would also like to remind people that this kind of language and comments can lead to discipline and or even termination. Again, I will stress that this applies to both management and non-management.

On a positive note, Local 598/Unifor is having a golf tournament on Saturday, May 28th, 2016. Please refer to the posting.

Continue to bring any of your concerns forward so we can address them in a timely manner.

As always, BE SAFE!

In Solidarity,

Gates St. Louis
