UNION NEWSLETTER

September 2016

Hello Brothers,

As the summer is winding down, I hope everyone had a good one and tried to enjoy the extremely hot weather we had this year.

Over the summer, we've had a few issues at MMTI, mostly about absenteeism and the attendance policy, overtime distribution over seniority and equal distribution.

There's also a new issue of our emergency alarm (that we don't have) and will be hopefully solved as soon as possible.

We had our longest standing employee (Grant Byron) finally retire on July 14, 2016 after 42 years with us. On behalf of all of us at Mansour, we would like to congratulate him and wish him well on his new adventure.

On a very sad note, we lost one of our supervisors (Jerry Shyminsky) on the September long weekend to an accident on a fishing trip. I'd like to take this opportunity on behalf of Mine Mill Local 598/Unifor and its members to send our deepest condolences to all his family and friends during this most difficult time. He was taken way too soon doing what he loved to do.

Rest in peace Jerry, gone, but never forgotten.

In Solidarity,

Chad Nelles
